

Creating a Full Spectrum of Resistive Exercises is as Easy as Putty in Your Hands.

Soft

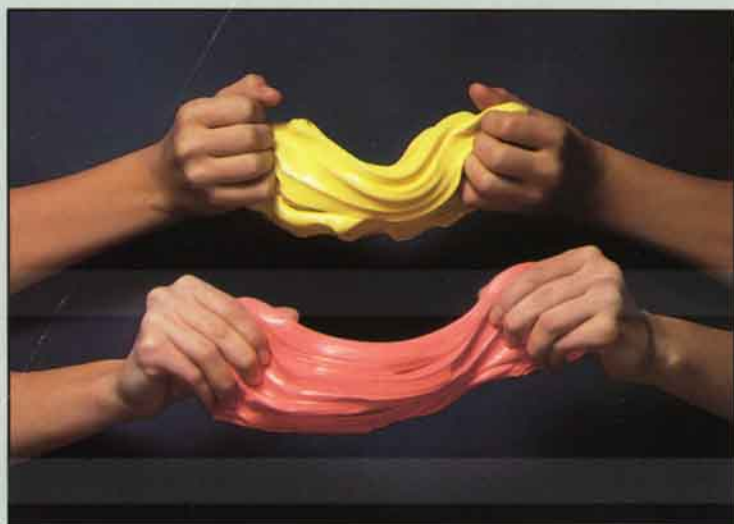

Firm

Firmer

Firmest

BeOK® Color-Coded Therapy putty is designed to meet practically every patients' hand/arm strengthening needs. Squeeze, stretch, twist or pull it in an endless assortment of ways.

Watch your patients progress through a range of resistance, from soft yellow to firmest blue, and they'll get positive reinforcement by advancing from color to color.

This unique color-coded concept helps you plan totally individualized programs through graded resistance that you can check at a glance. Blend the putties together to increase the range of resistance to meet specific patients' needs.

All four colors are formulated to ensure long-lasting plasticity, contain only organic non-bleed colorants and have an unconditional one-year performance guarantee.

Try these exclusive resistance aids for yourself. The sample kit contains all four colors, plus Theraplast®, a pleasant-to-touch, silicone material also specially compounded for hand exercise activities.

Call for your five FREE samples today and receive The "Therapy Putty Hand Exercise Book" as an added bonus! (\$1 charge for shipping and handling).
